Office Action Summary	Application No. 10/664,819	Applicant(s) STRAK ET AL.	
	Examiner Carolyn A. Paden	Art Unit 1761	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kelly (3,897,573) as further evidenced by Shenouda (4,396,634).

Kelly discloses a fish product, such as salmon or trout, that is made by treating fish fillets with salt and a phosphate compound, coating the fish with fish binder, molding the binder coated fish and freezing it (column 2, lines 1-19, 32-38 & 62-63 and column 1, lines 65-67). Claim 1 appears to differ from Kelly in the recitation of the use of phosphate in step a.

Shenouda is relied on for evidence that phosphate and salt are both well known in the art to solubilize proteins (column 2, lines 39-54). So even though phosphate is not mentioned in Kelly, it would have been obvious to substitute salt with phosphate to modify the extent of salt in the product.

The claims also appear to differ from Kelly in the recitation of the treatment time and temperature but no unobvious or unexpected difference or result is seen from the conditions of the claims and the treatment process of

Kelly. It is appreciated that surimi is not mentioned but no unobvious or unexpected difference is seen from the fish source of Kelly and those used in the claims.

Applicant argues that the amount of binder used in Kelly is different from that of the claims. No unobvious or unexpected result is seen from the 5% or more binder of Kelly and the less than 10% required in claim 1. Applicant argues the arrangement of fish portions but the arrangement of the fish portions in a particular fashion is a matter of choice with regard to individual preferences.

Applicant argues that the heat treatment of Kelly is different from that of the claims. No unobvious or unexpected result is seen from the selection of one time of temperature of heat treatment over another. It is very well known to heat or cook fish to heat set the proteins.

The rejection of the claims over Hanson and Shenouda alone has been withdrawn in view of applicants' arguments and amendment to the claim 1.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE**

FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

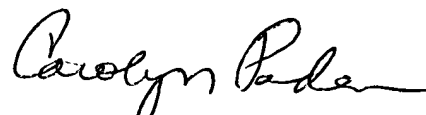

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
